Celtech Smart Doorbell

Security starts at your front door

Now you can always see who is ringing your doorbell from anywhere and anytime. You can also talk with them using our two-way audio communication from our app.

Using built in motion sensors, our doorbell will also capture intruder's images whenever they are close to your door, and alert you on your mobile phone.

CELTECH

Smart Doorbell

• **Resolution:**	2 Megapixels 1080p
• **Audio:**	Two way audio
• **Image Enhancement:**	WDR
• **IR:**	High power LED with ICR (10 meters)
• **Wireless Protocol:**	IEEE.802.11b/g/n 2.4GHz
