

Smart Home Series

Celtech Smart Doorlock

Security starts at your front door

Our smart doorlock gives you a peace of mind by letting you monitor who goes in and out of your home while you're away. You can also set temporary passcodes for visitors, or even remotely unlock your door to let someone in.

Our doorlock comes with 128bit-AES Encryption to prevent hackers from entering your home.

INDOOR ONE-BUTTON LOCK
Turn on the deadbolt inside the door, giving you a safe and worry-free private space.

SEMICONDUCTOR TECHNOLOGY
Accurate sensitive fingerprint recognition takes 0.8 second only

EMERGENCY POWER SUPPLY
Micro USB interface on the front panel
When the battery capacity is low and the door cannot be opened. Emergency charging with power bank is required.

ANTI-PRY ALARM SYSTEM
Built-in anti-tamper alarm
When the door lock is damaged by violence, immediate alarming triggered and system blocked

CELTECH
D5 COMPACT SMART LOCK
